

Dear parents,

We would like to update you on the progress and updates of our virtual learning program.

GRADE 6- 12 STUDENTS' QUARTER 4 PROJECTS:

We would like to thank all our parents who supported their children to complete their 4th quarter project on time. We are happy to inform you that most of our students performed exemplarily well in their digital projects showcasing the knowledge learned during the virtual learning program.

GRADE 6- 12 END OF YEAR EXAMS:

Following the directive from the Ministry of Education, there will be no final exams this semester. Grades that students had achieved before the start of the Virtual Learning Program shall be used. Please note that school closures happened after we had successfully completed the third quarter of the academic year and the students' grades were already entered in the system.

VIRTUAL LEARNING CLASSES:

We would like to confirm that the virtual learning lessons will continue as normal. The school is committed to complete the remaining part of the academic year curriculum to ensure that all students are ready for the next grade level. During every class, students' attendance records are kept and continuous online in-class assessments are made.

SCHOOL & PARENTS' RESPONSIBILITY:

We ask all our parents to reiterate the purpose of education to our students. Please help us reinforce to our students that:

- a) The purpose of learning is not just to pass tests or exams but to acquire knowledge.
- b) When the chance to learn now is missed, they may never get another chance to learn the same content. Lessons will not be repeated.
- c) Curriculum at the next level is built on the content of the previous level. Hence, if they do not master the content of the current level they will struggle at the next level.
- d) When the chance to learn is missed now, that opportunity is taken by the other students therefore it makes it difficult to catch up with peers in future.
- e) So, the only person who loses when a student miss lessons is the student!
